

NOTICE TO STATE WATER PROJECT CONTRACTORS

Number: 10-12

Date:

NOV 22 2010

Subject: 2011-State Water Project Initial Allocation to 25 Percent

From:

Raphael A. Torres, DEPARTMENT OF WATER RESOURCES

The Department of Water Resources (DWR) is initially approving 1,043,034 acre-feet of Table A water for long-term State Water Project (SWP) contractors in 2011. SWP supplies are projected to meet 25 percent of SWP contractors' requests for Table A water, which totals 4,172,126 acre-feet. Attached is the initial 2011 SWP allocation table.

This allocation is made consistent with the long-term water supply contracts and public policy. DWR considered several factors, including existing storage in SWP conservation reservoirs, SWP operational constraints such as the conditions of the recent Biological Opinions for Delta smelt and salmonids and the longfin smelt incidental take permit, and 2011 contractor demands. DWR may revise allocations if warranted by the year's developing hydrologic and water supply conditions.

Based on this initial allocation, DWR will prorate the 30 percent delivery schedules submitted by the contractors earlier this year in developing new schedules, unless revised schedules are submitted. DWR will send an approved monthly water delivery schedule to each long-term contractor in December.

If you have any questions or need additional information, please contact Robert Cooke, Chief of DWR's State Water Project Analysis Office, at (916) 653-4313.

2011 STATE WATER PROJECT INITIAL ALLOCATION (ACRE-FEET)
